Approved by an advisory panel of active and retired Rangers, and the Texas Ranger Hall of Fame and Museum, LDT Customs, Inc. has been granted licensing privileges to produce a *limited edition* custom motorcycle honoring the legendary lawmen. The bike was unveiled during the annual Ranger Reunion, a private 2-day event held at the museum each year. Only 100 of the American made motorcycles will be built. A donation from the sale of each bike will go to support the Texas Ranger Hall of Fame and Museum in Waco, which is designated the official historical center for the law enforcement agency. Each purchase will be accompanied by a certificate from the museum, signed by an acting or distinguished retired Captain of the Texas Rangers. Their name will also be engraved on a plaque to be permanently displayed at the museum and they'll receive a 5-year family pass as well. Purchasers of the bike should feel proud to be part of a project that is helping to preserve the unique American heritage of the Texas Rangers.

As an additional benefit to the museum, the bike numbered 001 in the series will be auctioned to the highest bidder in April and awarded by the captains of the Texas Rangers.
